Mosiah Chapters 18 -24

It is amazing the impact just one man can have. Abinadi's bold testimony seemed to have fallen upon deaf ears in King Noah's court but it forever changed the life of Alma and many others that followed him. After being chased out of King Noah's court Alma quickly repented and went to work sharing the truths that Abinadi so boldly declared.

He preached faith in a Savior and repentance and a great multitude soon gathered. In Mosiah 18: 8-12 we understand what it truly means to be a follower of Christ. We're there to comfort and mourn with those who are in need. We're to be a witness of God at all times, in all things, in all places, until we die.

They were united in the gospel as a people but this didn't prevent them from going through hard times. Both Limhi and Alma's people experienced many great hardships because of their faith. They made it through these hard times by turning their hearts to God and relying on each other.
